Marlene: I checked on this issue and was told that it was probably an issue regarding call volume. The person I spoke with said that someone with the Tribe called the hotline early this afternoon and provided 5 names and addresses for testing. Kathi

Subject: RE: Tribal Members Requesting Water Well Testing

Good afternoon,
I just wanted to update you all regarding the Tribal Member's requesting their water wells tested.
Jason is no longer the contact person and has directed me to call the (970) 375-8700 number.
I have been calling the number and I receive a busy signal every time.
Is there any way that I can hand deliver the information?

If you could get back to me regarding the call number or hand delivering the information; it would be greatly appreciated.

As always thank you and have a wonderful rest of your day.

Thank you,
